GELDO
PINA COSTA

Senior Full-Stack Engineer · AI Engineer

Software engineer with 15 years turning complex problems into simple, reliable products. Strong in frontend (React/TypeScript), full-stack delivery and applying AI to real products. Philosophy: make it simple and right.

WORK EXPERIENCE

Senior Software Engineer Nov 2019 — Present
Riachuelo

Engineering of PDV Omni, an omnichannel checkout powering 500+ retail stores across Brazil. Frontend-focused: built the component library, screens and usability work with UI/UX, plus back-end.

React · React Native · Redux · Node.js · TypeScript · Electron · Java · Spring Boot · Kafka · AWS

Systems Development Analyst Apr 2015 — Sep 2019
SM Soluções

Co-author of SIAPEC3, an Agricultural Integration System bridging state entities and agribusiness segments. Web and mobile platforms (back-end and front-end) and systems analysis.

Java · JSF · Hibernate · Angular · React · Ionic

Analyst / Programmer / Technical Lead Aug 2013 — Mar 2015
SGN

Banese Anti-fraud project: a platform detecting and reporting bank-card fraud attempts via Business Intelligence. Full-stack development and systems analysis.

C# · ASP.NET MVC · Entity Framework · SQL Server

Web Developer Nov 2010 — Jul 2013
Infox

PJe project (Electronic Judicial Process), used across all branches of the Judiciary (Federal, State, Labor). Back-end and front-end development.

Java · JSF · Hibernate · JBoss Seam · PostgreSQL

EDUCATION

Technologist in Internet Systems 2014
Universidade Tiradentes — Aracaju-SE, Brazil
